October 14, 2021

Dear SMG-Reseda Patients:

Algos, Inc., a Medical Corporation, dba Synovation Medical Group (the “Group” / “SMG”) is posting this notice as part of the Group’s commitment to patient privacy. The Group regrets to inform our SMG-Reseda patients that there might have been a breach of their protected health information. **Not all SMG-Reseda patients were affected by the breach. What Happened?

On August 15, 2021, the Group discovered that person(s) unknown broke into the vehicle of an SMG employee on August 15, 2021. The perpetrator(s) took a laptop bag containing a laptop with encrypted information and an appointment schedule with printed information on Seventy (70) patients with appointments on August 17 or 20, 2021 with Dr Andrew Seltzer.

What Information Was Involved?

The Group has learned that the following (printed) information of the Seventy (70) patients have been compromised: patient name, patient number, date of birth, age, telephone number, abbreviation of insurance name, co-pay amount, type of visit, and visit date, time, and/or duration estimate.

What We Are Doing.

The Group is working on obtaining evidence that might help law enforcement locate the perpetrator(s). As of the date of this letter, the incident is not being investigated by law enforcement; therefore, notification was not delayed by a law enforcement investigation.

What You Can Do.

As a precautionary measure, the Group recommends that patients remain vigilant by reviewing their account statements and credit reports. If a patient detects any suspicious activity on an account, the patient should notify the entity with which the account is maintained. The patient should also report any fraudulent activity or any suspected incidence of identity theft to the appropriate law enforcement authority, their state attorney general, and/or the Federal Trade Commission (the “FTC”). To file a complaint with the FTC, go to <http://www.consumer.ftc.gov/features/feature-0014-identity-theft> or call 1-877-ID-THEFT (1-
